

# Residential Care Referral Services

# H.E.L.P.

Healthcare and Elder Law Programs

***H.E.L.P. provides this listing as a public service. Listing does not imply endorsement of any organization or person. We do not in any way warrant the services any listed organization or person may provide. Checking the references and verifying information about the organization or person is the responsibility of the consumer.***

## What Services Do Residential Care Referral Services Provide?

These agencies provide one or more of the following services:

- ▶ A list of residential care facilities (e.g. retirement home, continuing care retirement community, assisted living, board and care home, skilled nursing facility) in the geographic region desired;
- ▶ Assist with alternatives based on the medical and psychosocial needs of the senior;
- ▶ Provide alternatives based on the price range desired and needed;
- ▶ Provide consultation to determine the needs of the client; and
- ▶ Provide after-placement monitoring and servicing.

Many services know about the care facilities in their area, and some will visit facilities with you.

## Selected Residential Care Referral Services

The following is a listing of referral services that serve the South Bay. **Each listed service is paid by the care facilities that they refer to, in different ways. Be sure to ask how they are paid.**
